SPECIFICATIONS

Dimensions: (Nominal)

6.59' wide x 65.62' long x 2.5 mm thick overall (avg. roll size)

Order cuts for exact sizes

Finish Coat: Aluminum Oxide

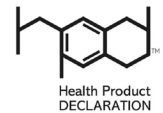

Installation: Glue Down

Warranty: 15 Yr Limited Commercial

Packaging: 48.07 sy/roll, 6.61 lbs/sy, 317.47 lbs/roll

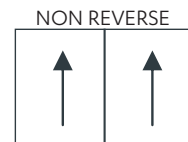

BENEFITS

The overall construction of bio-based polyurethane is not greatly different from what we are accustomed to seeing in traditional sheet products. The key difference is the use of bio-based polyurethane which becomes harder than most other coatings, providing a durable, high-performing product. Biophilia products are derived from rapidly renewable resources like canola, rapeseed, and castor oil and are free of ortho-phthalate plasticizers and solvents.

Installation Fast Facts:

- All coordinating Bio-Based EVA Weld Rods available
- Biophilia 4151 Adhesive
- Coverage 800-1200 sf per 4 gallons
- Pattern repeat 59.06" in length
